

# Incident and Injury Free Leadership Team Raffle

We want everyone who works here to go home in the same condition as they came to work... or better.

---

Tell us about your experience:

1. What worked and what didn't work when you used stop work authority?
2. What is the best way to communicate that you care about the safety of someone who needs help at work?
3. What happened the last time someone showed that they cared about your safety at work?

*The raffle drawing will be conducted after the completion of both BPRO dates. The winner will receive a digital picture frame – as seen on our display table.*
